

To whom it may concern

20th February 2015

Testimonial - Victoria Coker

"I have known Victoria for the past 15 years as a Team Manager, Practice Educator, and Lead Practitioner within Local Authority Social Services and Visiting Tutor at Birmingham City University.

Throughout this time I have been enormously impressed with and inspired by her personal and professional qualities especially her respect for and deep level of commitment to vulnerable people, staff and students.

She has a wide array of qualities including honesty, reliability, timeliness, setting and keeping high standards, outgoing personality, positive and supportive attitude, resilience, real and coherent direct communication with people, strong work ethic and ability to make difficult carefully considered decisions whilst managing, valuing and negotiating complexity, diversity and uncertainty."
